Order of Play:

The order of play shall be determined by throwing for the bull. Toss a coin, the winner of the toss has the choice to shoot first or second. The winner of the bull shall throw first in all odd numbered legs, including any deciding leg. The loser of the bull will throw first in all even numbered legs. Each player must have a dart in the scoring area of the board. If the first dart is thrown into the green or red bull, that player **must retrieve his/her dart before the next player throws for the bull**. If a dart lands outside of the bull area, it must stay in the board for measurement if required. If a tie occurs, **remove the darts from the board** and throw again in reverse order.
